Antipolo City, Rizal

**Subject: Grade 12 Career Seminar and Free Entrance Exam / Scholarship Exam**

Dear Dr. Bautista:

The MFI Polytechnic Institute Inc. (formerly MFI Foundation, Inc.) has been a firm advocate of technical education and training in its more than 40 years of existence. To date, MFI has graduated more than 4,000 students in its formal learning courses under the Industrial Technician Program (ITP) and currently has graduated 217 Senior High School students this year. For its non-formal learning courses, we have trained more than 150,000 working professionals who upgraded their skills, shifted careers, students who wanted to have more hand-on training, or out-of-school youths who opted to take their second chance in the technical field. They now serve our country by being part of the technical workforce that operate diverse industry sectors here and abroad.

To reach out to more people who could benefit from building a career in academics and technical fields, MFI shall be offering the following post-senior high school courses under the Industrial Technician Program scheme. It involves a year of in-school training and another year of in-plant training with our industry partners:

- Automotive & Motorcycle Technology
- Industrial Automation Technology
- Industrial Electrical Technology
- Information Technology
- Semiconductor Manufacturing Technology

With this, may we conduct a career talk at your schools at any date that is convenient to your school activities and students? Also, may we conduct a **free entrance exam/scholarship Exam** on your interested Graduating Grade 12 students who chose to pursue the Tech-Voc Track in Senior High School? Our School Coordinators Ms. Estefania Aurora Averilla and Mr. Dennis Valenzuela shall follow up on our request. Should you have questions regarding our program, you may reach us at phone numbers 632 0758 to 67 local 222.

We look forward to your favorable response to our request.

Sincerely,

Antonio M. Kosca, Jr.

Executive Vice President and Chief Operating Officer

MFI Polytechnic Institute Inc.
