This Advisory is issued for the information of all Public and Private Elementary, Junior and Senior High Schools
July 13, 2018

AMAZING 3D-EDUCATIONAL FILM SHOWING

The Amazing 3D-Educational Film presents their new project using the 3D technology. Utilizing the largest film frame in motion picture history to project breath-taking, crystal-clear images on screens up to ten meters high and using advanced Dolby multi-speaker sound like IMAX theaters using the latest active shutter 3D glasses which create a memorable cinematic experience that makes learning fun and exciting.

For more information you may contact Mr. Franklin Santiago at telephone no. 546-9453, Cell nos. 0908-885-8385 / 0917-779-8385.

Participation of both public and private schools shall be in **voluntary basis** and subject to the *no-disruption-of-classes policy* stipulated in DepEd Order No. 9, S. 2005, entitled *Instituting Measures to increase Engaged Time-On-Task and Ensuring Compliance Therewith*. This is also subject to the no-collection policy as stated in DepEd Order No. 12, S. 2012, Section 3 of Republic Act no. 5546, *An Act Prohibiting the Sale of Tickets and/or the Collection of Contributions for Whatever Project or Purpose from Students and Teachers of Public and Private Schools, Colleges and Universities (Ganzon Law)* and the DepEd Order No. 66, S. 2017, *Implementing Guidelines on the Conduct of Off-Campus Activities*.

AMAZING 3D

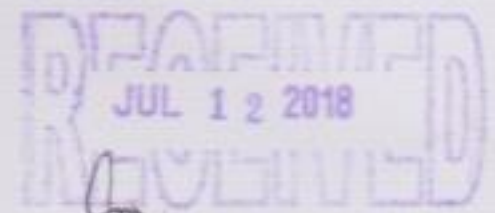

Educational Film Showing

Bring the **IMAX** Fieldtrip
Experience to your School

July 12, 2018

DR. ROMMEL C. BAUTISTA, CESO VI
Schools Division Superintendent
Division of City Schools – Antipolo City
C. Lawis Extension, Brgy. San Isidro
Antipolo City

DEPARTMENT OF EDUCATION
DIVISION OF ANTIPOLO CITY

Sir:

Greetings from **Amazing 3D!**

We would like to inform you our newest project this school year, our **Amazing 3D-Educational Film Showing**. It is a unique and very educational movie experience for students, parents, and teachers. Utilizing the largest film frame in motion picture history to project breath-taking, crystal-clear images on screens up to ten meters high and by using advanced Dolby multi-speaker sound like in IMAX theater using the latest active shutter 3D glasses, we create a memorable cinematic experience that makes learning really a fun.

Adding a movie to classroom instruction time is perceived by students as an entertaining and welcoming change and, in turn, may increase their motivation and interest in the topic. Our mobile educational film showing is using the latest 3D technology as a tool in teaching our young learners in compliant to the K to 12 curriculums.

We believe in your thrust of providing students with different learning opportunities outside the usual classroom setting. And as an educator you know well children respond to the use of the films in instruction. Classroom today can have a range of learning styles, and students are recognized as having varied learning styles. With images that provide viewers with a "you are there" feeling experience with state of the art sounds, discussion and learning will be easy inside the classroom. It is more than like an educational fieldtrip experience activity.

In this regard, we would like to ask permission and look forward for your support and approval through **endorsement** as we intend to offer our services to the different public schools in Antipolo City. We guarantee that participation on the said activity will be on purely voluntary basis only.

For further inquiry, please contact us at **5469453 / (0908) 8858385 / (0917) 7798385**.

Thank you very much and more power. Godspeed!

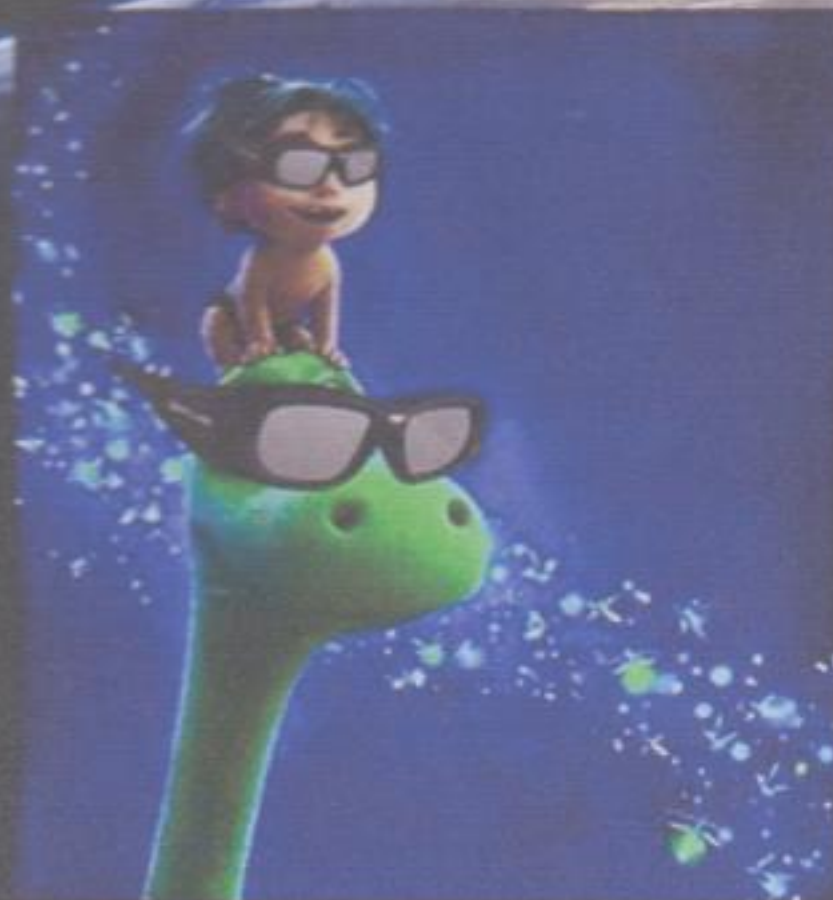

With you in service,

FRANKLIN S. SANTIAGO
Manager

AMAZING 3D

Educational Film Showing

Bring the IMAX® Fieldtrip Experience to your School

Our amazing 3D film showing educate effectively and very entertaining as well. It is a unique and an educational movie experience for students, parents, and teachers. Utilizing the largest film frame in motion picture history to project breath-taking, crystal-clear images on screen up to ten meters high and by using Advanced Dolby multi-speaker sound like in IMAX THEATER using the latest Active shutter 3D glasses, we create a memorable cinematic experience that makes learning a really fun experience.

Adding a movie to classroom instruction time is perceived by students as an entertaining and welcoming change and, in turn, may increase their motivation and interest in the topic.
