Schools Division Superintendent *RCB*

**SUBJECT: SCHEDULE OF THE CONDUCT OF PARENT'S ORIENTATION ON SCHOOL BASED IMMUNIZATION**

**DATE:** September 26, 2018

The **Expanded Program of Immunization (EPI)** has been focusing on the provision of vaccines to specific ages of children since 1975. This program has proven to provide high levels of protection from particular diseases such as **diphtheria, tetanus, measles** among others. It has been instrumental in the eradication of certain pandemic diseases such as Small Pox in the whole country. Results of monitoring shows that certain vaccines have been confirmed to be **more effective if given at specific ages.**

In this regard, the **Department of Health and the Local Government Unit** in cooperation with the **Department of Education Division of Antipolo** will be conducting **School Based Immunization (SBI)** to the learners in **Grades 1, 4, and 7** of our Division. The **grade 1** learners will receive the **Measles Containing Vaccine (MCV)** and the **Tetanus Toxoid (Td)** vaccines. **Female grade 4 students (9-13 years old)** will receive the **Human Papilloma Virus (HPV) vaccine.** The **grade 7** learners will receive the **Measles/Rubella (MR) vaccine and the Td vaccine.** City Health Officials together with the DOH will conduct an **orientation on the vaccination process for the parents** of the possible vaccinees. **Consent forms for the vaccination** will be given to them for immediate accomplishment and return so as to determine the number of learners to be vaccinated.

The schedule of orientation is as follows:

October 1, 2018	BN II ES Mambugan I ES Sta. Cruz ES Juan Sumulong ES Jesus Cabarus ES Pantay ES
-----------------	--
